

ENCM511 Application 2 Report
Michael Tagg - 30080581
Christina Truong -
Vincent Zheng - 30067628

Formulas used

$$V = (V_{in} * V_{ref}) / (V_{in, max})$$

The max voltage the app project can measure is 3.00V.

$$R = (R_o * V_{in}) / (V_{ref} - V_{in})$$

The max resistance the app project can measure is 51344 Ohms
